

Skin Rejuvenation for Healthy Looking Skin

Safely and comfortably fade the appearance of:

- Rosacea
- Spider veins
- Skin imperfections caused by sun damage
- Age spots
- Uneven skin tones

How does Skin Rejuvenation with elos work?

The combined Bi-Polar Radio Frequency and Light energies of elos technology precisely and safely target pigmented lesions such as freckles, sun spots and age spots. Vascular lesions such as spider vessels and redness from rosacea are also lightened and gradually fade.

When can I expect to see results?

Gradual and cumulative improvement of skin tone is typically achieved between 5-6 treatment sessions. The total

number of required sessions depends on your skin's condition.

Leg & Facial Vein Treatment

Diminish problem areas by gently reducing the appearance of veins on the legs and face.

How does elos vein treatment work?

Combined Bi-Polar Frequency and Light energies precisely target and heat the unwanted vein while protecting the surrounding skin.

When can I expect to see results?

Small red spider veins on the face or lower body can be treated, as well as larger blue-green colored veins on the legs can be treated. Improvement may be seen after a single treatment. The total number of required treatments depends on the extent and the depth of the vascular lesions. Maximum clearance is typically achieved with in 1-3 sessions.

VelaSmooth Cellulite Treatment

Nearly 80% of women over the age of 20 have cellulite.

We are proud to offer the first medical device FDA cleared for cellulite treatment. The VelaSmooth is a non-invasive medical solution.

Reduce the appearance of cellulite on:

- Buttocks
- Thighs
- Hips
- Abdomen
- Upper Arms
- Love Handles
- Saddle Bags

How does VelaSmooth work?

VelaSmooth uses combined Bi-Polar Radio Frequency and light energies- known as elos™ technology- plus gentle suction and massaging action, to precisely target and safely heat problem fat chambers within the skin.

Is VelaSmooth right for me?

Results and total number of required treatment sessions depend on your body type and desired treatment area.

ReFirme Skin Tightening

The ReFirme Skin Tightening procedure, via wrinkle reduction, features revolutionary elos technology that enables you to comfortably achieve a more youthful, tightened and lifted appearance.

How does ReFirme Skin Tightening work?

Elos technology precisely heats the dermal tissue within the target treatment area. This stimulates collagen production and produces a firming effect in lax skin. Fine wrinkles are reduced, noticeable lifting can be observed and the texture of your skin becomes more smooth and elastic.

When can I expect to see results?

Most patients see gradual and cumulative results throughout the ReFirme Skin Tightening treatments. The total number of required treatment sessions depends on your skin's condition.

Does it hurt?

ReFirme is a gentle, comfortable treatment. Cooling of the skin's surface provides enhanced patient safety and additional comfort.

Hair Removal Effective, Gentle & Safe

Say goodbye to unwanted hair growth on all body areas including:

- Upper lip
- Cheeks
- Chin
- Neck
- Breasts
- Stomach
- Arms
- Shoulders
- Bikini area
- Legs
- Back

How does Hair Removal with elos work?

Hair follicles are precisely targeted and destroyed using the revolutionary elos combination of Bi-Polar Radio Frequency and Light energies.

When can I expect to see results?

Hair growth is reduced after each treatment. The number of treatments required will be based on your hair color and type, body area, and skin tone.
